

Council Works Notification

Ross River Dam to Douglas Water Treatment Plant Pipeline Activation

Works location: Ross River Dam, Ross River and the Douglas Water Treatment Plant

Flyer delivery date: Tuesday 14 May 2024

Townsville City Council is committed to delivering well-maintained infrastructure and efficient transportation systems, with over \$400 million being invested in roads and transport management, open spaces, water, and wastewater management this financial year.

As part of this commitment, Council is renewing the Ross River Dam to Douglas Water Treatment Plant pipeline, a key water infrastructure asset essential to enhancing Townsville's water security.

The upcoming works entail activating a new pipeline through connections at the Ross River Dam, Ross Dam Booster Pump Station and the Douglas Water Treatment Plant. A temporary pumping system at Ross River will remain operational throughout the process.

Low level noise may be experienced during activation period. Council has taken all necessary measures to reduce the noise in accordance with the Department of Environment, Science and Innovation recommendations.

Operation will commence **Tuesday 21 May** and continue for 5 weeks, weather permitting. **During this time the Ross River between Black Weir and Gollogly Lane, Rasmussen will be closed to all users.**

We appreciate your patience during this time as Council conducts critical works in your area.

If you have any questions about this work, please contact the Project Manager, Blair Middleton during business hours on 13 48 10.
