

Works Notification

UPDATE – Mitchell, Gregory, and Eyre Street Pathway Upgrade

Wednesday, 23 April 2025

What works are coming up?

Townsville City Council is preparing to commence Part One of Phase Five of this project. Phase Five involves upgrading the pathway on the southern side of Gregory Street, between Eyre and Mitchell Streets.

What will the works include?

As part of the project, works will include:

- Traffic management and installation of temporary fencing
- Removal of existing pavers and associated materials
- Excavation of trench and install water main
- Backfilling and relaying pavers.

Once the work is completed, we will clean the site, remove the temporary fencing, and reopen the pathway and the road to the public.

What does this mean for me?

Council assures businesses that access will remain open throughout the project. We will make every effort to minimise disruptions and keep stakeholders updated.

If you live in or are travelling through the area, you may experience:

- Construction machinery and vehicle movement.
- Increased levels of dust, noise, and vibrations.
- Temporary traffic changes, including lane closures, minor traffic delays and reduced speed limits.
- Temporary loss of on-street parking and disruption to the outdoor dining areas.

Funding

Proudly funded by the Queensland Government's Works for Queensland program in association with Townsville City Council.

When will the works take place?

In preparation for the upcoming pathway upgrade, Council will first replace a section of the existing water main that runs along the footpath between the corner of Eyre and Gregory Streets and Urban Loft.

Location	Corner of Gregory Street to Urban Loft, North Ward
Timing	On Monday 28 April 2025 . Council expects these works to take one (1) week to complete, weather permitting.
Hours	Council will undertake these construction activities as night works . Night work hours are from 6pm to 6am Monday to Saturday . In exceptional cases, work may be required outside these hours.
