Attachment 1 - Townsville City Council Infrastructure Charges Resolution 2018

Attachment 1 - Townsville City Council Infrastructure Charges Resolution 2018

This resolution is made under section 113 of the *Planning Act 2016*, constituting the following clauses and schedules, which are collectively the Townsville City Council *Infrastructure Charges Resolution 2018*.

1. This resolution applies to the Townsville City Council Local Government Area for all locations where the levying of infrastructure charges are not otherwise restricted by particular legislation.
2. This resolution has effect on and from 1 July 2018 until superseded by the commencement of another charges resolution.
3. This resolution applies to applications for approval for:
 - Material Change of Use - all material change of use development, with the exception of development only made assessable due to overlay codes (e.g., flood hazard, steep land hazard, bushfire hazard, etc.);
 - Reconfiguration of Lot – where additional allotments are created. Charges will be calculated by reference to the land use on each allotment. For vacant allotments:
 - o residential and emerging communities zonings are the equivalent of a Dwelling House (3 bedroom) on the relevant lot size, and;
 - o other zonings are the equivalent of a Caretaker's accommodation (3 bedroom, detached dwelling) on the relevant site area;
 - Building Works - for self-assessable or exempt land uses and zonings:
 - o as identified in Schedule 1, or;
 - o relative to the existing land use (or equivalent use for a vacant allotment, as specified above), it proposes a moderate-to-high increase of demand on the infrastructure network.
4. The applicable infrastructure charge is to be determined by:
 - (i) applying the location factor of Schedule 2 to the base charge of Schedule 3 and the size of the development, and;
 - (ii) where the development is:
 - a. conditioned to connect to a particular service but it is not located in the relevant planned service area (refer to the Local Government Infrastructure Plan), and;
 - b. has not already conditioned the cost of connection as an 'extra payment';

the location factor shall be that from Schedule 2 which reflects the relevant combination of services, not necessarily the location of the development.
5. To calculate the net charge to be levied on a development, the applicable charge for the proposed land use is to be reduced by the applicable charge for a 'credit' land use, being:
 - an existing use on the premises if the use is lawful and already taking place on the premises;
 - a previous use that is no longer taking place on the premises if the use was lawful at the time it was carried out (to be clear, the credit is to be a square metre rate relevant to the allotment(s) when it took place, and is to be applied to the extent of overlap with the allotment(s) of the proposal);
 - other development on the premises if the development may be lawfully carried out without the need for a further development permit.
6. The applicable charge for the proposed land use and the 'credit' land use, relevant to a net charge levied on an infrastructure charges notice, is to be indexed at the time it is paid to council.

The indexation must be calculated:

- (i) In accordance with the 3-year moving average quarterly percentage change of the Australian Bureau of Statistics, Road and Bridge Construction Index (Queensland series) forecast by council for the December quarter of the financial year of the charge payment.
- (ii) But is not to result in a charge that is more than the relevant State Planning Regulatory Provision (SPRP) maximum charge, as defined in section 122 of the *Planning Act 2016*.

7. When calculating the establishment cost of trunk infrastructure subject to an offset or refund under section 116 of the *Act*, or when an application is made to recalculate establishment cost under section 137 of the *Act*, the value of trunk infrastructure is to be determined:
- (i) after the design of such infrastructure has been approved by council, and prior to the commencement of work to provide the infrastructure and;
 - (ii) for works - by the amount agreed by council's Chief Executive Officer, being an amount that is within the range determined in accordance with the quotation and tender requirements of s5.5 to s5.10 of council's procurement policy (document no. 3027, version 3, dated 15/3/13). The relevant quotations or tenders are to be sourced by the applicant in collaboration with council, and;
 - (iii) for land – by the difference in market value of the original land and land remaining after the trunk infrastructure land is removed, at the time the application was properly made, as reported by a certified practicing valuer (sourced by the applicant in collaboration with council), considerate of:
 - a. highest and best value of the land;
 - b. the value at the time the application was properly made (if the infrastructure is included in the Local Government Infrastructure Plan), otherwise at the time the application was approved;
 - c. Q100 flood levels;
 - d. all other real and relevant constraints, including but not limited to: vegetation protection, ecological values including riparian buffers and corridors, stormwater or drainage corridors, slope, bushfire hazards, heritage, airport environs, coastal erosion, extractive resources, flooding, land use buffer requirements and landslide hazards. This must also include tenure related constraints and restrictions such as easements, leases, licences and other dealings whether or not registered on title; and
 - e. relevant sales evidence and clear analysis of how those sales and any other information was relied upon in forming the valuation assessment.
8. The conversion criteria used for making a decision on a conversion application made under section 139 of the *Act* are:
- (i) The infrastructure has capacity to service other developments in the area;
 - (ii) The function and purpose of the infrastructure is consistent with other trunk infrastructure identified in the Local Government Infrastructure Plan (LGIP). To be clear, it must:
 - a. be consistent with the definitions of trunk infrastructure used in mapping the plans for trunk infrastructure; and
 - b. provide the associated desired standards of service to the assumed growth.
 - (iii) The infrastructure is not consistent with non-trunk infrastructure for which conditions may be imposed in accordance with section 145 of the *Act*; and
 - (iv) The type, size and location of the infrastructure is the most cost effective option for servicing multiple users in the area, with the 'most cost effective option' meaning the least cost option based upon the life cycle cost of the infrastructure required to service the future urban development in the area at the desired standard of service.
9. The term 'Gross Floor Area' (GFA) as used in this resolution be defined as:

The total floor area of all storeys of a building measured from the outside of the external walls or the centre of a common wall), other than areas used for the following:

- (a) building services, plant and equipment;
- (b) access between levels;
- (c) ground floor public lobby
- (d) a mall;
- (e) the parking, loading and manoeuvring of motor vehicles; and
- (f) unenclosed private balconies whether roofed or not.

In addition, the term shall include the floor space of associated outdoor dining areas.

Other words and terms used in this resolution have the meaning given in the *Planning Act 2016* or the *Queensland Planning Provisions* version 4.0. If a word or term used in this resolution is not defined in Sustainable Planning Act 2009 or the *Queensland Planning Provisions* version 4.0, it has the meaning given in the planning scheme.

Schedule 1 – Building works subject to infrastructure charges

(Y = self-assessable or exempt land use development which are candidate for charges at building works)

DC	District centre
MC	Major centre
PC	Principle centre
SC	Sub-regional centre
MU	Mixed use
SR	Sport and recreation
OS	Open space
CF	Community facilities
CON	Conservation
LII	Low impact industry
MII	Medium impact industry
HII	High impact industry
RUR	Rural
EC	Emerging communities

Schedule 2 – Charge areas and location factors

Schedule 3 – Base charges

Table 1 – Base charges for residential uses

(1) Use category	(2) Use	(3) Charge category	(4) Base charge (\$)
Residential	Dwelling house	1 or 2 bedroom dwelling	17,831
		3 or more bedroom dwelling	
		on lots < 200m2	22,413
		on lots 201m2-299m2	25,166
		on lots 300m2-399m2	26,457
	on lots 400m2 and greater	27,737	
	Dwelling unit	1 bedroom dwelling	12,029
		2 bedroom dwelling	17,038
		3 or more bedroom dwelling	24,059
	Caretaker's accommodation (attached dwelling)	1 bedroom dwelling	12,029
		2 bedroom dwelling	17,038
		3 or more bedroom dwelling	24,059
	Caretaker's accommodation (detached dwelling)	1 or 2 bedroom dwelling	17,831
		3 or more bedroom dwelling	
		on lots < 200m2	22,413
		on lots 201m2-299m2	25,166
		on lots 300m2-399m2	26,457
	on lots 400m2 and greater	27,737	
	Multiple dwelling	1 bedroom dwelling	12,029
		2 bedroom dwelling	17,038
		3 or more bedroom dwelling	24,059
Dual occupancy	1 bedroom dwelling	12,029	
	2 bedroom dwelling	17,038	
	3 or more bedroom dwelling	24,059	
Accommodation (short term)	Hotel	1 bedroom (non-suite)	7,244
		1 bedroom (suite)	7,244
		2 bedroom suite	9,703
		3 or more bedroom suite	13,868
	Short-term accommodation	1 bedroom (non-suite, < 6 beds)	9,906
		1 bedroom (non-suite, 6 or more beds)	*
		1 bedroom suite	6,411
		2 bedroom suite	9,103
		3 or more bedroom suite	12,842
	Tourist park	Caravan/tent (group of 1 or 2 sites)	9,906
		Caravan/tent (group of 3 sites)	13,868
		Cabin (1 or 2 bedroom)	9,906
		Cabin (3 or more bedrooms)	13,868
Accommodation (long term)	Community residence	1 bedroom (non-suite)	14,407
		1 bedroom suite	14,407
		2 bedroom suite	18,329

(1) Use category	(2) Use	(3) Charge category	(4) Base charge (\$)
		3 or more bedroom suite	27,737
	Rooming accommodation	1 bedroom (non-suite, < 6 beds)	15,016
		1 bedroom (non-suite, 6 or more beds)	*
		1 bedroom suite	8,016
		2 bedroom suite	10,820
		3 or more bedroom suite	15,016
	Relocatable home park	1 bedroom dwelling site	12,029
		2 bedroom dwelling site	17,038
		3 or more bedroom dwelling site	24,059
	Retirement facility	1 bedroom (non-suite)	8,291
		1 bedroom suite	12,029
		2 bedroom suite	17,038
		3 or more bedroom suite	24,059
Other Uses *	A use not otherwise listed above.	The charge is the charge in column 3 and 4 for a use category (in column 2) that appropriately reflects the use at the time of assessment. Where these are not appropriate, the charge is to be based on first principles, determined at the time of assessment.	

Table 2 – Base charges for non-residential uses

	Utility installation	As for Other Uses (Column 1)	*
Minor uses	Cemetery	Nil	Nil
	Home based business	Nil	Nil
	Landing	Nil	Nil
	Market	Nil	Nil
	Park	Nil	Nil
	Roadside stall	Nil	Nil
	Substation	Nil	Nil
	Telecommunications facility	Nil	Nil
Other Uses *	A use not otherwise listed above.	The charge is the charge in column 3 and 4 for a use category (in column 2) that appropriately reflects the use at the time of assessment. Where these are not appropriate, the charge is to be based on first principles, determined at the time of assessment.	

Notes

* For the base charge, refer to Other Uses *

* Where a first principles assessment is required, it is to be based on the Local Government Infrastructure Plan unit user costs of infrastructure, applied to reasonable expectations of infrastructure demand relevant to the land use, and be considerate of the statutory charge caps
